Resume

name：Yunpeng Chai

Working & Project Experience

2018.06-2013.08 **Xi'an Cai Gua Software Inc.**
Testing Engineer
The main job I did when I was working in Cai Gua Software Inc. was Testing, including the system testing, unit testing. Also, I was working on some simple UI design by using photoshop, and lightroom. Meanwhile, I was doing well with my colleagues, and could quickly adopt the new working experience.

2019.01-2019.04 **CEAMS—Canadian Engineering Accreditation Management System**
Main page design and administrator page design（with group)
A software system that facilitate the management, measurement, and visualization of the outcomes-based assessment and continuous program improvement for the Canadian Engineering Universities. Follow the instruction of professor, our group (in 6) is response to work on the full progress of administrator page and login page.

Volunteer Experience

2017.08-2017.09 **campus quick tour guide**
As volunteer we lead the new students and coming students to get familiar with the whole campus buildings and their own faculties and help them register and apply their student account.
